Profile

Fresh out of CodeCore's intense and comprehensive programming bootcamp and now using that foundation of knowledge to continue to challenge myself by building Ruby on Rails applications with TDD, while implementing other technologies to further develop my skill set. Ready to put my speed and tenacity for coding to work for cool people.

Skills

Experience

OFFSHORE DRILLING – 2002 - 2015

Originally from northern Alberta, and straight into the oilfield out of school. Then all around the world as a Driller. With the global changes currently underway, I am humbled to have the opportunity to leave the oil career behind, and embrace my first passion, building great software.
